Governor Michael J. Dunleavy
STATE OF ALASKA

February 12, 2019

Chief Clerk
House of Representatives
Alaska State Legislature
Thomas Stewart Building, Room 202
Juneau, AK 99801-1182

Dear Chief Clerk:

Under the authority of Article III, Section 18, of the Alaska Constitution, I am transmitting a bill relating to repealing the credit for municipal payment against the state levy of tax on oil and gas exploration, production, and pipeline transportation property and the levy of tax by a municipality on oil and gas exploration, production, and pipeline transportation property.

Under current law, the state assesses the value of oil and gas exploration, production, and pipeline transportation property. Municipalities with this property in their jurisdiction can then levy a property tax based on the state's assessment. Taxpayers are then required to pay a tax to two taxing jurisdictions – the municipality and the state. This system is inefficient for both taxpayers and the state. Taxpayers are allowed to credit payments made to a municipality against the tax due to the state. Due to the credit allowed against the state tax levy for municipal tax payments, the state general fund receives only a fraction of the revenues generated by this tax. This results in lower general fund revenues, from vital properties of statewide economic importance, to be appropriated to municipalities around the state and support of vital state programs.

This bill would repeal the ability of municipalities to levy tax on these properties of vital statewide importance. Therefore, the bill would also repeal the credit for a payment made to a municipality against the state tax. Instead, the state would assess and collect all of the tax on these properties. As a result of the exclusion of these properties from a municipality's tax base, the required local contribution for public school funding would be reduced.

The bill would also implement efficiencies in administration of the tax. Taxpayers would only have one taxing jurisdiction to report to on these properties. The bill would streamline the appeals process to be consistent with other administrative appeals by eliminating automatic trial de novo at the superior court level. Taxpayers could still appeal to the specialized State Assessment Review Board for a hearing.

I urge your favorable action on this measure.

Sincerely,

A handwritten signature in blue ink, appearing to read "mjd", written over a horizontal line.

6 *** Section 1.** AS 14.17.510(a) is amended to read:

7 (a) To determine the amount of required local contribution under
8 AS 14.17.410(b)(2) and to aid the department and the legislature in planning, the
9 Department of Commerce, Community, and Economic Development, in consultation
10 with the assessor for each district in a city or borough, shall determine the full and true
11 value of the taxable real and personal property in each district in a city or borough. If
12 there is no local assessor or current local assessment for a city or borough school
13 district, then the Department of Commerce, Community, and Economic Development
14 shall make the determination of full and true value guided by AS 29.45.110 and based

on a determination of full and true value made by the state assessor at least every two years using the best information available, including on-site inspections made by the state assessor in each of those districts at least once every four years. For purposes of this subsection, the full and true value of taxable real and personal property in any area detached shall be excluded from the determination of the full and true value of the municipality from which the property was detached for the two years immediately preceding the effective date of the detachment. Also, in making the determination for a municipality that is a school district, or for a city that is within a borough school district, the assessed value of property taxable under AS 43.56 shall be excluded [IF A TAX IS NOT LEVIED UNDER AS 29.45.080 BY THE MUNICIPALITY THAT IS THE SCHOOL DISTRICT]. The determination of full and true value shall be made by October 1 and sent by certified mail, return receipt requested, on or before that date to the president of the school board in each city or borough school district. Duplicate copies shall be sent to the commissioner. The governing body of a city or borough that is a school district may obtain judicial review of the determination. The superior court may modify the determination of the Department of Commerce, Community, and Economic Development only upon a finding of abuse of discretion or upon a finding that there is no substantial evidence to support the determination.

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2018 LEGISLATIVE SESSION

BILL NO. LL0085

Analysis

This legislation repeals the authority of a municipality to levy a tax on oil and gas exploration, production, and pipeline transportation property. It also repeals the associated credit for municipal payments against the state levy of tax. Finally, it eliminates the statutory requirement that the state assessor's office calculate the tax cap related to local municipal property taxation.

The Division of Community and Regional Affairs does not anticipate a fiscal impact from this legislation. Any regulations repealed as a result of passage would be absorbed within existing authority.

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2019 LEGISLATIVE SESSION

BILL NO. LL 0085

Analysis

This legislation amends AS 14.17.510(a) by repealing the language that excluded the assessed property values of oil and gas production and pipeline property from the required local contribution calculation if the municipality was not levying a tax on those properties. This bill would expand the exclusion on the assessed values of oil and gas production and pipeline property to all municipalities, since they would no longer be able to collect taxes on the value of those properties effective July 1, 2019.

The funding mechanism is a general fund transfer to the Public Education Fund (PEF). The fiscal note effect for FY2020 through FY2025 is reported in the fiscal note for the PEF, as the funding is deposited to the PEF not into the Foundation Program funding component. The above analysis is presented here for explanation purposes only.

FISCAL NOTE ANALYSIS

STATE OF ALASKA

BILL NO. LL 0085

Analysis

This legislation amends AS 14.17.510(a) by repealing the language that excluded the assessed property values of oil and gas production and pipeline property from the required local contribution calculation if the municipality was not levying a tax on those properties. This bill would expand the exclusion on the assessed values of oil and gas production and pipeline property to all municipalities since they would no longer be able to collect taxes on the value of those properties effective July 1, 2019.

There are seven school districts with oil and gas property that would be affected by this legislation (Anchorage; Cordova; Fairbanks; Kenai; Mat-Su; North Slope; and Valdez). The fiscal note's general fund appropriation was calculated by removing the associated full value of the oil and gas property from the school district's total full value determination, in order to establish a new required local contribution amount under AS 14.17.410. By removing the oil and gas property, each school district's required local contribution decreased. With the reduced required local contribution, the state aid portion of the foundation formula increased by a total of \$22,355.2 for these seven districts. This ensures that each school district receives their respective basic need as calculated under AS 14.17.

FISCAL NOTE ANALYSIS

STATE OF ALASKA
2019 LEGISLATIVE SESSION

BILL NO. LL0085

Analysis

Background

This bill would remove the authority for a municipality to levy and collect a tax on oil, gas, and pipeline property. The bill would also repeal the credit for those taxes paid to municipalities and claimed against the state levy of tax on oil, gas, and pipeline property. Lastly, the bill would remove the entitlement to trial de novo at a superior court.

Revenue Impact

The Department of Revenue estimates that this legislation will increase oil and gas property tax revenue by \$420 million in FY20.

Implementation Cost

This legislation would require the Department of Revenue to update its Tax Revenue Management System (TRMS) and Revenue Online (ROL) which allows a taxpayer to file a return online. The update would consist of reprogramming both systems, updating the return rules in TRMS and testing both systems thoroughly to verify that they function as expected. We would also need to update the current tax return forms and make changes to certain regulations. The supplemental fiscal note figure of \$50.0 in FY19 is to cover the costs of having our contractor update the two systems.

The Department of Revenue has had a Memorandum of Understanding with the North Slope Borough in the which the North Slope Borough has covered the majority of the costs for two contractors to assist the Tax Division with its annual property tax roll assessments. If this bill were to pass, the Tax Division would need to cover the full cost of the contractors itself. The Division believes it would be a better use of funds to add a position to the property tax group and not use contractors. The new position would be devoted to the annual property tax roll assessments between January and June of each year and for the rest of the year the position would audit property tax returns and also assist with audits in other tax groups if needed. The \$142.4 ongoing personal services cost is the all in cost for an Auditor IV in the Tax Division.
